Current Living Conditions:

Marina is a single mother. Her first husband, with whom she had 5 children, left to work one day in another city and never came back. Later marina married another man with whom she had her youngest daughter Mayra. However, Mayra's father was an alcoholic and hit her repeatedly causing Marina to decide that it would be best for her to separate from him as well. Marina now lives alone with two of her children, the rest being already married.

Her son Jorge studies in University, and Mayra is soon to graduate from middle school. For Marina it has been impossible to build a better home while supporting her children during their studies. Her married children help her with food, and sometimes with money, but with all of the necessary expenses it has been impossible.
